

Unix & Office Systems Group Web Hosting Service

The IS&C Unix and Office Systems Group provides Web “hosting” support for those customers needing Web services. We offer this service on our UCSBUXA system running the Solaris operating system and the SunOne Enterprise Edition Web server software.

The data on UCSBUXA is backed up nightly.

If you want to recover a file that has been deleted from your web home directory, we can do so for up to 6 months after deletion. If you want to recover a previous version of a file, we can retrieve the four previous versions for up to 6 months after they were changed.

For more information, please contact David Alix, via electronic mail at David.Alix@isc.ucsb.edu or by telephone at extension 4456.
